

We had Hatch's article and the 9/8 lecture:

- 1.) What is the difference between monogenists and polygenists? What were the implications of this in colonization?
- 2.) How does Boas define cultural relativism?
- 3.) What is unilineal cultural evolution and what anthropologist is associated with it?
- 4.) What is Tylor's view on tradition?
- 5.) How are Tylor's views reductionistic?
- 6.) What is intellectualism?
- 7.) What are the main differences between Boas' and Tylor's theories of anthropology?
- 8.) What is positivism?
