

# French Majors and Minors at Fairfield University Inaugural Reception, January 2016

First things first, Cece & Michelle help move the tables and chairs so that we can all mill about.

And there's a seemingly never-ending number of chairs to be moved in the Language Resource Center (LARC).

Time for a few embellishments from faculty holdings...

And some refreshments under faculty quality control...

Here are a few of the many students who got a chance to chat with fellow majors and minors outside of class, followed by brief talks by Katya '16 and Diana '16 on their experiences on study abroad in Aix-en-Provence at the IAU.
